

## Job Opportunities

# Hydraulic Assembler, KinePower, a Division of Kinefac Corporation, Worcester MA

[KinePower](#) is the leading choice in the Northeast US for your fluid power component or customized system needs. With our applied engineering skills, we serve a wide variety of industries who need high quality solutions. KinePower is a top source of specialized hydraulic and pneumatic components and cost effective and efficient power units. We represent and distribute for many first-class manufacturers who build fluid power products that are sold as individual components or as systems for the OEM, maintenance, repair and replacement markets. KinePower will design and build complete hydraulic or electro mechanical machines to meet a customer's proprietary requirements.

KinePower is a division of Kinefac Corporation, a world leader in precision metal forming technology that develops and manufactures precision metal forming machinery from its world class facility in Worcester, Massachusetts. Kinefac Corporation has provided innovative solutions to the automotive, aerospace, medical device and other industries for over 59 years.

KinePower is searching for a full-time Hydraulic Assembler to construct and assemble KinePower products. Reporting to the KinePower Division Manager, the Hydraulic Assembler is essential to the smooth operation of the division. The successful candidate will be a self-starting, hands-on individual who is organized and detail oriented and can work effectively in a team environment.

### Duties/Job Responsibilities

- Assemble and test hydraulic cylinders, pumps, motors and valves
- Assemble components and assemblies per drawings and verbal instructions
- Ability to coordinate multiple projects at once
