# **Hyaluron Contract Manufacturing (HCM) Announces Tour of Facility**

On Wednesday, September 17, 2008 Hyaluron Contract Manufacturing (HCM) of Burlington, Massachusetts will be hosting a tour of their manufacturing facility in conjunction with The New England Chapter of the Parenteral Drug Association (PDA).

The New England Chapter of the PDA, as part of their local meeting, is offering a tour of Hyaluron Contract Manufacturing's facility in Burlington, Massachusetts. Those participating will have the unique opportunity to view the latest developments and state-of-the-art equipment of an aseptic formulation/filling company. The tour will provide an inside look at HCM's three aseptic fill suites:

- Aseptic Fill Suite I houses the lyophilization unit - the BOC Edwards Lyomax3 and the INOVA VFVM-3031 Vial Filler
- Aseptic Fill Suite II includes the INOVA H3-5V Commercial Scale Syringe Filler
- Aseptic Fill Suite III contains the INOVA SV-122 Syringe Filler

Tour guides will provide explanations about the equipment and answer any questions. To register for this event visit the PDA website at <http://pdachapters.org/newengland> and click on "Upcoming Events."

### **About Hyaluron Contract Manufacturing**

Hyaluron Contract Manufacturing aseptically fills and lyophilizes products into syringes, vials, and custom containers. In addition to traditional formulations, HCM excels in process development scale up of difficult formulations including: emulsions; viscous gels; suspensions, liposomes, and proteins. For additional information please visit [www.hyaluron.com](http://www.hyaluron.com).
